APPROVAL OF STATE ENGINEER

Overruled 6/15/70, See Ruling No. 1743

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the 2.0 c.f.s., herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to a beneficial use. A suitable measuring device must be installed and accurate measurements of the water placed to a beneficial use must be included in the proof of such use when filed.

The State retains the right to regulate the use of the water herein granted at any and all times.

This permit is also issued subject to the terms contained in the State Engineer's Ruling No. 1743, dated June 15, 1970.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.0 cubic feet per second.

Actual construction work shall begin on or before March 3, 1971

Proof of commencement of work shall be filed before April 3, 1971

Work must be prosecuted with reasonable diligence and be completed on or before March 3, 1972

Proof of completion of work shall be filed before April 3, 1972

Application of water to beneficial use shall be made on or before March 3, 1975

Proof of the application of water to beneficial use shall be filed on or before April 3, 1975
